individuality —
that which is
basic, unique
in each of us.
so hard to do.
conformity —
losing something
of self
in succumbing
to pressures,
society.
necessary?
what is vital,
what superfluous?

excitement, fear,
delight,
disillusionment we experienced all
emotions
and wondered
about ourselves,
about cmbc.

murder in the cathedral

by t. s. eliot

"a martyrdom is always the design of god, for his love of men, to warn them and to lead them, to bring them back to his ways. it is never the design of man; for the true martyr is he who has become the instrument of god, who has lost his will in the will of god, and who no longer desires anything for himself, not even the glory of being a martyr."

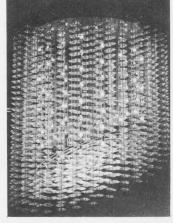

the passion according to st. matthew a great work by a great man, coming to life under the hands of awareness and understanding. glorious sound filling a hall worthy of such beauty. sound which could not leave untouched anyone who heard.

Teachers To Know

OUR LORD was called Teacher oftener than by any other title. The cross was His effective Lesson to all mankind for all time. The risen Christ "opened their minds to understand the Scriptures."

WE BELIEVE as His disciples that a seminary education is more than lectures, papers and exams. It is getting to know your teachers. Sharing with them. Exploring with them the frontier of ideas as colleagues of Christ. As Associated Mennonite Biblical Seminaries you get to know the entire faculty as persons as well as scholars. AMBS has more teachers engaged in the widening dialogue of Anabaptist-Mennonite issues than any other place in the world.

INVESTIGATE our programs leading to fully accredited degrees. Write to David Habegger, Admissions Counselor. You will receive a personal letter in reply.

Is an idea in action.

It is a place where spiritual values gain new dimension; where the intellect is nourished; where individuality is respected.

It is a college of distinction engaged in a bold quest for knowledge and for truth.

Its purpsoe is your growth.

Playing Bach already?
No, not quite.
Even on Yamaha's
new B-6 organ
that's going to take
a little longer.

But still it's true that for adult or child, progress can be truly amazing. Despite the variety and richness provided by 11 tone levers, two manuals and one pedal octave, you can actually move ahead faster than on a piano. (And even if she doesn't like Bach, the B-6 offers exciting interpretive possibilities on other types of music.)
